

**HKC**

# AER-4G

## External 4G Aerial with 5m Cable

External 4G(LTE) Antenna with convenient mounting for use with 4G-WiFi in low signal areas. Antenna supports 4G and 2G bands with a stainless-steel mounting bracket and 5 metres of low-loss LMR195 cable, terminated with a straight SMA plug.

### Key Features:

- Gain: 2-3dBi
- VSWR: Less than 2.0:1 in all bands
- Impedance: 50 Ohms
- Cable Type: LMR195
- RoHS Compliant: YES

### Product Contents:

- 1 x Antenna
- 1 x Stainless Steel Mounting Bracket
- 5m LMR195 Cable

**The Smart Choice for  
the Professional Installer**

## Exploring Your AER-4G External Antenna

### Technical Specifications

- Dimensions 380 × 36 × 145 mm
- Antenna Technology Cellular
- Mounting Type Wall Mount
- Air Interface 4G LTE, 3G, 2G
- Frequency Bands 2G: 824-960MHz, 4G: 2600MHZ
- VSWR < 2.0:1
- Gain dBi ~2dBi
- Impedance (Ohm) 50Ω
- Polarisation Vertical
- Pattern Omnidirectional
- Cable Type LMR195
- Connector Type SMA Plug
- Cable Length 5m
- Operational Temp. -40°C to 85°C

Use with 4G-WiFi  
in low signal areas
