# CE3F

Fixed size 3 rack and pinion door closer

**A robust,  
flexible, easy  
to fit and set up  
door closer**

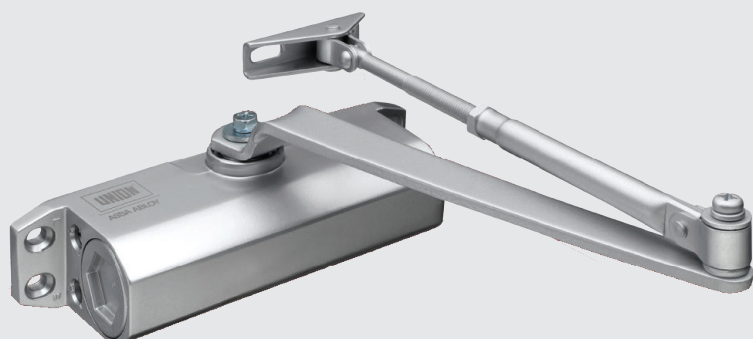

# CE3F Fixed size 3 rack and pinion door closer

**The CE3F is a remarkably robust and flexible rack and pinion door closer, which provides incredible value for money.**

The CE3F includes a specific mounting template for each position, to prevent mistakes. It uses the same footprint and fixing dimensions as most popular UK designs and can be easily retro fitted with minimal effort.

The fully adjustable arm allows the CE3F to be easily installed and adjusted in multiple applications on timber and metal doors. With side mounted door speed and latch controls for convenient access, the CE3F is easy and accurate to set up for the door opening and closing.

## Range benefits

- **Easy to install**
- **Non-handed design** provides flexibility - reducing the amount of parts stocked
- **Easy to adjust** arm set for regular, transom and parallel arm installation
- **Additional bracket included** for parallel arm mounting
- **Easy to set up**
- **CE marked** to EN 1154 in all 3 mounting positions
- **130° maximum** angle of opening (controlled closing)
- **Fixed power size 3**
- **Adjustable latch** action for final 15°
- **Fire rated** for timber (FD120) and metal (FD240) fire doors
- **Certifire approved**
- Suitable for **fig.1, fig.61** and **fig.66** installation
- **10 year guarantee**

## Ideal applications

Residential living, nurseries, schools, care homes, hospitals.
