Retro-V

Retro fit rack and pinion door closer

The easy way to
update your old
door closers

Retro-V Retro fit rack and pinion door closer

Retro-V is the perfect door closer for retrofitting and keeping your existing door fire safe.

The easy, convenient way to replace older door closers including the Briton 2003, 2003V and 2004 Series. Retro-V uses the existing holes and positions, so you can fit a new door closer in minutes without the worry of contravening the door's fire certification.

Designed to be easy to set up just how you need it, Retro-V includes a variable power adjuster - simply turn using the supplied allen key to adjust the closing force. Retro-V is certified for use on fire doors and is CE Marked to EN 1154 with variable power EN 3-4 (EN 1634 pt 1 up to 120 mins for timber and 240 mins for steel).

Range benefits

- **Retro fits** the Briton 2003, 2003V, 2004 Series door closers
- **Fits** both left and right-handed doors
- **Can be installed** on timber and metal doors up to 1100mm width
- **Same fixing points** as Briton 2003, 2003V and 2004 Series
- **Adjustable** power size 3-4
- **CE Marked** to EN 1154 as variable power 3-4
- **Fire rated** for timber (FD120) fire doors
- **Fire rated** for metal (FD240) doors
- **Silver finish**
- **Suitable for fit.1, fig.61 and fig.66** installation
- **10 year guarantee**

Ideal applications

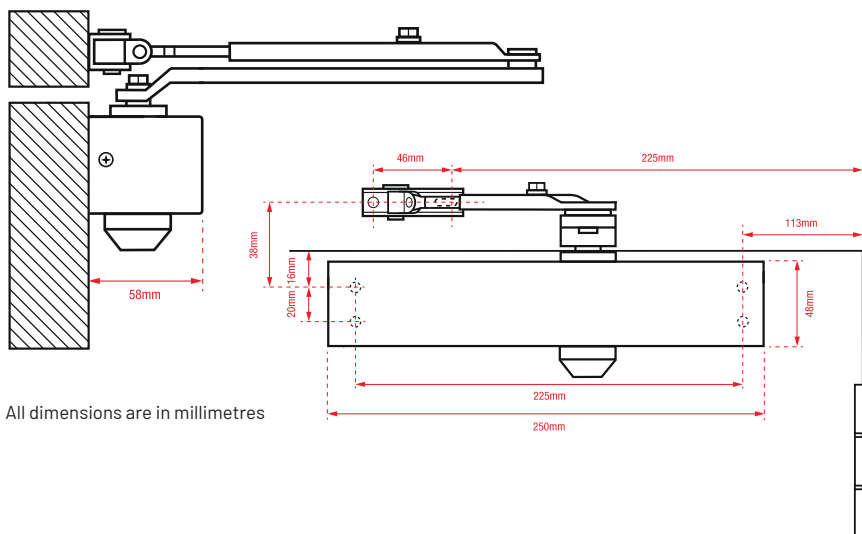

Residential living, nurseries, schools, care homes, hospitals.
