ASSA ABLOY

400 series
85mm lockcase range

**Ideal for
residential projects**

400 series 85mm lockcase range

Our 400 series includes a selective range of 85mm lockcases. Built to be robust, they are ideal for frequent use where potential misuse may take place.

Featuring euro profile cylinders, they can easily be integrated in to a master key system and are ideal for residential projects as well as public access buildings.

Supplied with a square faceplate and available in satin stainless steel or brass finish to suit the aesthetic of your door.

The 400 series offers three 85mm models with different locking options and are suited to non-fire door applications.

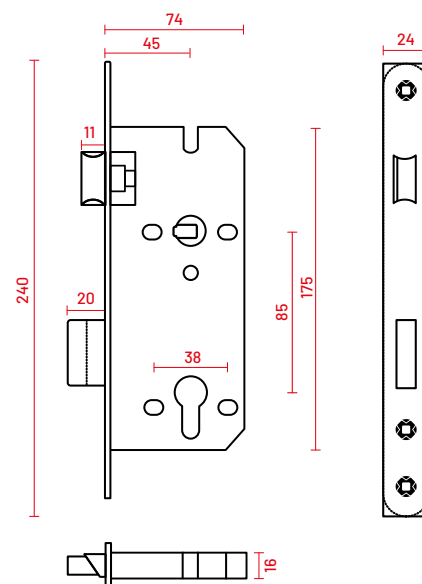

- 45mm backset
- For use with euro profile cylinders
- 8mm sintered steel follower
- Durability tested to 200,000 cycles
- Supplied with splinter guard
- Timber and metal door fixings supplied as standard
- 5 year guarantee

Ideal applications

Residential and commercial projects for non-fire rated doors.
